24th August 2022

Dear Mrs Hutchinson

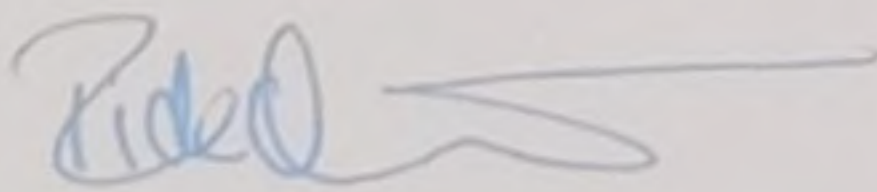

Please accept this as our update on our grant provided in August 2021. We are extremely grateful to the Nineveh Charitable Trust for the support they have provided.

The funding was spent on two months salaries for the support workers who have been working on the Grounds Maintenance project to help the disadvantaged people.

During the period from August 2021 to August 2022 the Grounds Maintenance Service provided employment and training opportunities for a small crew of people who have overcome a variety of disadvantages, disabilities, learning difficulties and mental health conditions. Through the project they were able to help maintain 140 properties, performing tasks such as mowing lawns, sweeping up leaves, simple landscaping and general garden services which provided them with the positive daily activity to keep them going and provide a focus for their life.

Thank you once again for the support that you have provided to us in the past.

Yours sincerely

Rick Mower,
Managing Director
