### **Kent County Show 2023**

Thank you once again for supporting the Kent County Agricultural Society and in particular the support of the educational area of the Kent County Show.

The Living Land Village was a huge success and a popular area amongst families for three days. The area consisted of interactive activities around fruit, digging for vegetables, planting stations, cookery workshops, milking competitions, a sensory area focused on grains and how they are harvested, a tractor simulator, a variety of rare breeds animals and an array of machinery that is used at harvest time.

County Shows are a vital part of the agricultural and rural scene, and it is most important that they continue. As we start our journey into the next 100 years, I hope that we can rely on your support for the Kent County Agricultural Society and help us work harder.

Yours sincerely

Julian Barnes  
Chairman  
Kent County Agricultural Society
